The central bay has a double glass door and lead glass sidelights and elliptical fanlight. The entrance is gained under a doric portico with four columns and there is an iron fence on its roof. Above the entrance is a single window with semi-circular head and upper sash having radiating muntins (as do the other second story windows). Above the window the name of the courthouse is in block of red sandstone. This central bay has an Ionic pilaster on each side. On each side of this is a pavillion set out from the wall by only a few inches. They also have Ionic pilasters. Above first story windows are flat arches with brick keystones.</p> <p>5.
